Continuation of Substance of Interview including description of the general nature of what was discussed:
Examiner made the following proposed claim amendments which would place the instant application in condition for allowance: (1) To cancel the term "angina" from all claims. (Examiner indicated that myocardial ischemia and angina entail a separate status in the art and are not art-recognized equivalents); (2) To cancel claims directed to a) tablet alone & b) capsule alone as they were directed to non-elected subject matter (Applicant had elected "microcapsules" in the response filed 11/01/06). Examiner also indicated that she will examine/allow claims drawn to microcapsules in tablet form and microcapsules in capsule form which correspond to withdrawn claims 71-73, 75, 76 & 79. Applicant's representative agreed and adopted the Examiner's suggestions. Applicant will file a Supplemental Amendment making the necessary claim amendments. A Notice of Allowability will be issued in due course.
